

Mathematics - Hear The Music

Some pursue "A Major"

Remove the sharps and you are in the key of C which is also known as "A Minor"

So since you are considering a minor in mathematics, this is what you need to take:

1. Calculus I-IV (MA 1713, 1723, 2733, and 2743)
2. MA 3113 Linear Algebra
3. MA 3253 Differential Equations I
4. Two 3000+ Mathematics classes for students entering MSU *before* Fall 2010

or

One 3000+ Mathematics class and one 4000+ Mathematics class for students entering MSU in Fall 2010

By the way, we accept IE Engineering Statistics I (IE 4613/6613) as one of the 3000+ Mathematics classes.

In the semester that you graduate, you will have to apply for graduation sometime before the middle of the semester. On that form is a place to declare your minor. Your transcript will be sent to the Undergraduate Academic Coordinator, Dr. Len Miller, and if you have fulfilled the above requirements he will approve it.

If you have any other questions, please contact the Undergraduate Advising Coordinator, Dr. Len Miller, at miller@math.msstate.edu.
